

Discounted registration rates end 31 January 2018.

IEEE 4th World Forum on Internet of Things
05-08 February 2018 – Singapore

[2018 IEEE 4th World Forum on Internet of Things](#)

5-8 February 2018 Singapore

The theme of the WF-IoT 2018 is "Smart Cities and Nations." Singapore's government is one of the leading examples where policies and practices result in deployment of "smart" technologies and adoptions of IoT. Highlights of the conference include:

- The many public sector officials who will be giving plenary talks or leading panels - including the Minister of Communications and Information and the head of the National Research Foundation of Singapore.
- Key players from Industry responsible for major initiatives and business units focused on IoT - Cisco, General Electric, IBM, Intel, Microsoft, Toshiba, and many more.
- Results of advanced research across the many multi-disciplinary aspects of IoT bringing together the World's recognized experts and thinkers. The [program](#) includes workshops, tutorials, and events centered on young professionals.
- [Tracks](#) that deal with the practical aspects of IoT organized to explore Vertical Industry centered solutions and challenges and cross-cutting Topical Areas that are important to all aspects of IoT - such as Artificial Intelligence, Security, and the emerging technology behind Blockchains.

We have lined up an impressive list of distinguished [plenary speakers](#) that are sure to make this conference one that's exciting and absolutely not to be missed. More information about the conference can be found on our [website](#).
